

MEDIA RELEASE

Caravan and Camping Spectacular covers horizons as wide as Australia's. Come along and widen your horizons.

Belmont Park Racecourse, the new venue for the 2007 Perth Caravan and Camping Show, will mushroom into a tentland of a different kind over the 5 days from 8 - 12 March.

The major caravan, motorhome, tent trailer and camper trailer, campervan and camping equipment manufacturers will be there with their colourful awnings, annexes, marquees and swags.

And everything from 4WD accessories to solar power, communications and gadgets will be under canvas, except for the 'Tourism Marquee' which will be in the air conditioned grandstand.

CEO of Caravan Industry Australia WA, Pat Strahan, said that many people waited until the Show to see the latest products and compare them before making a decision, whether it is their first purchase or upgrading their existing product.

"It is a significant and important purchase, and you need to do your homework.

"People know it is a fantastic opportunity to see the biggest range of options together in one place and to talk to the manufacturers and dealers in a relaxed environment."

The move to Belmont Park Racecourse will offer better access and a more user-friendly format for visitors.

"The number of exhibitors has been growing each year and we needed somewhere to accommodate them and the 35,000 + visitors who come along.

"At Belmont Park we can centralise some of the parking on the oval and use the layout to develop some different, fun activities for all the family," said Ms Strahan.

Whether you are a novice or a seasoned traveller of the great Australian landscape, there is always something new to make travelling more comfortable and information that will make the trip more enjoyable. Planning your next trip out on the open road will be made easy...
